

ARE YOU A PARENT OF A CHILD ON THE AUTISM SPECTRUM?

WE WOULD LIKE TO LEARN MORE ABOUT YOUR EXPERIENCE OF CHOOSING THERAPIES OR INTERVENTIONS.

Eligibility:

- ✓ Your child is between 4-11 years old
AND
- ✓ Received a diagnosis more than 6 months ago

Participation involves:

- ✓ Completing a background questionnaire.
- ✓ 1 hour interview with a researcher who will ask questions about your child's diagnosis of ASD and your experience of choosing ASD interventions.

We hope to learn more about what influences parents when making intervention decisions. On completion of this project we hope to identify new ways to support parents with decision-making.

This project has been approved by ACU HREC. Review number: 2018-159E

**Participate
in
Research!**

Interviews may take place at ACU or another location more convenient.

Phone interviews are also available.

**E-mail:
